The Value

- Error-free sample collection and preparation
- Correct match of patient, tests, tubes, and draw orders
- Samples are 100% "lab ready"
- 100% traceability assures pre-analytical process control
- Increased patient safety and experience

Discover how FlexLab™ advances
Clinical Laboratory Testing

FlexLab™

Inside the Clinical Laboratory

100% Touchless workflow and **connectivity without compromise.**

FlexLab™ is the only truly open Total Laboratory Automation (TLA) system that allows laboratories of any size to connect the analyzers of their choice and the specialties they need.
